DCI/IC-75-2953
4 September 1975

MEMORANDUM FOR: Deputy to the DCI for the IC

SUBJECT : USIB Committee Responsibilities for Analysis
of Foreign Weapon Systems

1. Reference is Item 2 on the USIB agenda for 4 September, subject as above.

2. I described the problem and proposed solution for about three minutes, then action to establish the proposed committees was approved by the USIB.

3. General Graham said he would like to "hold [redacted] feet to the fire" and have the record show that DIA wanted representatives of the military service S&T organizations importantly involved in the committee activity (including chairmanship of some sub-committees). The DCI said this "makes sense."

4. General Pustay asked that arrangements be made to have the committee chairman report to USIB at the end of a year of operation so judgment could be made as to how things were going.

5. There was a very brief discussion among Mr. Colby, General Walters and General Graham to the effect that the rotation of committee chairmanship was not fixed in concrete and that while both CIA and DIA would make nominations, the DCI would make the selection.
